

# School Opportunities!

Hello!

We hope your week is going well! Fall is here, and many of the school districts that we work with are still looking for qualified SLP's, PT's and OT's to help them for the 2012-2013 school year. We are able to offer highly competitive pay for these positions as well as great benefits for full-time employees.

It'd be great to hear back from you either way! If you're not interested in schools but would like to know about other opportunities in your area, please just let us know.

Over the past 20 years, we have partnered with all the major [SNF's, Hospitals, Home Health Companies, Outpatient Clinics and School Districts](#). We have full-time, part-time and PRN positions available locally here in Southern California.

We are looking forward to hearing from you or a colleague that would like more information!
