Santa Ana College online enrollment needs to be completed prior to admission utilizing section # 72145. “Brady – Emergency Care” 12th edition textbook will be required for this class and may be purchased at the school bookstore or are available on several online locations. Additional medical supplies may be required during class and will be made available for your use.

Prerequisites: Must have CPR certification before 4/1/13
A TB test is required for clinical rotations, must be completed before 4/1/13

::Location::
OC Lifeguards Headquarters
34127 Pacific Coast Highway, Dana Point, Ca 92629
This course is specifically designed for firefighters, lifeguards, police officers, other public safety personnel and those seeking careers as first responders. In addition to EMT, ICS, helicopter operations, boat operations and night operations subjects may be covered. This course has been developed to provide for a basic certification track for Professional Lifeguards and Firefighters. By successfully completing the course, and all its components, students will be eligible to take the National Registry Exam.
