Please see the attached for an evaluation of this year's convocation. Below please find one of the questions and the results. The top three items are the same as in 2015, when we also gave these options, but they are in a different order (2015 order was 2-1-3). I think the presentation this year may have tipped the scales somewhat as the item ranked #4 on this list was #7 in 2015.
