

Facilities and Safety Committee Goals 2022/2023

1. Align SAC Facilities Improvements with the RSCCD Sustainability Initiative. Maximum effort will be made to ensure that all improvements be created and managed sustainably for reduction of fossil fuel consumption, and thus the reduction of the campus carbon footprint. “Green” efforts will be considered as a means of reducing utility costs and improving the campus and community environment.
2. Receive and disseminate reports on maintenance, repair, renovations, and upgrades to existing buildings, infrastructure, and equipment, as well as progress on new construction as new buildings are approved, designed, and started. Provide feedback to appropriate parties.
3. Monitor efforts to maintain and improve campus appearance.
4. Continue to review and implement the SAC Facilities Master Plan.
5. Work in collaboration with the District Safety & Security to plan and disseminate annual emergency preparedness training schedules.
6. Develop a cyclical review process of safety/security-related policies, regulations, and guides as well as the college’s emergency operations plan to ensure currency and compliance.
7. Monitor the campus grounds and facilities for ADA compliance and review the ADA Transition Plan. Recommend that modifications be made in a timely manner to correct known deficiencies.
8. Provide a conduit for communication for faculty, staff and students to bring forward facility related issues to administrative attention.
9. Provide regular updates and make recommendations as necessary to College Council.
