

Student Equity @ Santa Ana College: Funding Requirements

Student Equity funds have been provided by the California Legislature through our system office to address differences in academic outcomes across our student population. The funding that we receive is based on an analysis of disproportionate impact and is intended to create results which can be measured in student terms. The populations that are disproportionately impacted at SAC are summarized below for your review and consideration. If you have questions as you complete your RAR related to Student Equity, please contact our Student Equity Coordinator, George Sweeney at Sweeney_george@sac.edu

Success Indicator	Disproportionately Impacted Population
Access	Veterans
Course Completion	Pacific Islanders At Risk: Latinos, African Americans, Foster Youth
Basic Skills Completion	Math: African-American, Latino, White, Foster Youth English: Male, African-American, Latino, White, Disabled, Foster Youth
