Activities:

As part of the maintenance for the fire alarm system, Cosco Fire Protection will be on-site to do repairs in building T and building K. The repairs include replacing a valve on the first floor of building T near the women's restroom, which requires the water to be turned off. There will be no water in the restrooms and break rooms during this time. For building K, all the sprinkler heads are going to be replaced. The technician will be accessing offices and work stations as needed. This repair does not require the water to be turned off.

Cosco will begin work at 6 am in building T with the repairs to be completed no later than 9 am. Next, they will start the repairs in building K and continue through the next couple days until completed.
