ESTIMATED COST

TESTS – PLACEMENT

PLACEMENT TESTING

WHAT is testing?

To assist you in successfully reaching your education goals, we request that most students complete assessment or placement testing in English, reading and math. This enables us to counsel you as to the appropriate English, reading and math courses you should take.

For English there are two tests. The College Test of English Placement (CTEP) is for students who have studied English and/or ESL (English as a Second Language) in school for at least seven years or who use English frequently on a daily basis. The other test, the Test of English Language Development (TELD) is for students who have not studied English and/or ESL in school for at least seven years or who do not use English frequently on a daily basis. Students taking the TELD will be referred to ESL/EMLS classes. Students who take the wrong test may be placed in a class that is not right for them. By the time you and the teacher realize that you are in the wrong class, it may be too late to register for the appropriate class.

The Math Diagnostic Testing Project (MDTP) has four different levels. Choose the level you feel you are best prepared for. Sample questions for each test are available in the Testing Center and in the math study center.

WHO should complete testing?

Any student who: plans to accumulate 15 or more units at RSCCD; plans to enroll in an English, reading, or math course; plans to complete an Associate degree, certificate, or transfer to a four-year university; is formulating career interests, plans or goals; is preparing for a new career, is undecided about educational goals, or who would like more information on present skills and abilities or help from a counselor in selecting appropriate classes.

WHAT if I already tested?

Your test scores in **English** are valid for **two years**. If you tested more than two years ago and have not taken an English or ESL class at SAC or SCC you must test again. If you wish to retest you will be required to wait one year.

Reading scores will remain valid indefinitely. If you wish a retest you will be required to wait one year.

Your test scores in **Math** are good for **one year**. If you tested more than one year ago and have not taken a math class at SAC or SCC you must retest. You may take a different level math test at any time. You may not take the same level math test more than once in any semester.

Continuing students who need to retest should schedule an appointment during priority testing. You may not retest if you have taken the CTEP (English and Reading) test within the last year, the TELD (ESL) within the last two years, or the Math test within the last 6 months for the same math level.

WHAT if I tested at another college?

If you tested within the last two years in English, last year in math, or anytime in reading, bring official copies of placement test results in English, reading, and/or math to the Testing Center (L-221) at Santa Ana College, as soon as possible to determine whether it is necessary to complete testing at SAC or whether your eligibility can be verified and you can be cleared for registration. Placement test information from other colleges must include: your name, name of the test(s), the raw score(s), and test date(s).

ESL test scores from other institutions are not accepted. In addition, ESL students who have completed ESL credit courses at other colleges, and are still in need of additional ESL or EMLS instruction, must also take

WHAT if I tested at another college? (continued)

the placement test at RSCCD. This is done so that we can determine which of our courses best meet your needs.

If your test scores are over two years old in English, or one year old in math, or if you are applying for a special program which requires testing at SAC, you will need to re-test.

HOW do I complete testing?

- 1. New students must first apply to the college.
- 2. Students who apply early will be referred to the Testing Center to schedule a testing appointment. Paper and pencil testing appointments are scheduled for CTEP, Math and TELD tests. Computer based CTEP/TELD and Math tests are available on a walk-in basis at Santa Ana College. Priority testing is conducted in the Testing Center, L-221. Call 564-6147 for an appointment.
- **3.** Continuing students who have not tested or who need to retest should complete testing during priority testing.
- 4. Regular testing for the Spring semester begins February 11, 2008. You may schedule a regular testing appointment online at www.sac.edu/eSARS_SAC/TESTCTR/eSARS.asp or by calling the Testing Center at 564-6147.
- 5. After you complete testing, you will be directed to attend orientation and advisement with a counselor where you will receive your test results and other information about college requirements, courses, and programs. You may register upon completing testing, orientation, and advisement.

WHY should I do this?

- 1. By completing testing, orientation, and advisement we will be able to assist you in planning a course of study based on your academic abilities and interests.
- 2. The California Community Colleges have adopted this matriculation effort as a statewide requirement.
- **3.** If there are other circumstances that should be considered in recommending your enrollment into certain courses, please contact the Counseling Center at 564-6100 or the Disabled Student Services Program, 564-6295.

RIGHT TO APPEAL

Students who feel that they have been treated in a discriminatory manner, or would like to appeal their recommended placement level may file a complaint about any aspect of the college's matriculation program with the matriculation coordinator. Call 564-6078.

FIRST CLASS MEETING

Make sure you attend the first class meeting!

Attendance at the first meeting of a class is advised because of enrollment demands. Any student not reporting to the first class meeting may be dropped from the roll sheet.

Please see the current SAC Catalog for specific guidelines for student conduct.

TRANSPORTATION POLICY

Some classes may be conducted off campus. Unless you are specifically advised otherwise, you are responsible for arranging your own transportation to and from the class site. Although the District may assist in coordinating the transportation and/or recommend travel times, be advised that the District assumes no liability or responsibility for the transportation, and any person driving a personal vehicle is **NOT** an agent of the District.

COLLEGE-CREDIT PROGRAMS

The Rancho Santiago Community College District offers major college-credit programs in Santa Ana and Orange. Classes offered at Santa Ana College are identified as "SAC." Santiago Canyon College classes are identified with "SCC". Please refer to the list of RSCCD facilities for specific class locations at other sites.

COURSE ARRANGED HOURS

Students are obligated to carry out hours by arrangement in designated facilities, which are normally available from 8:00 a.m. to 10:00 p.m., Monday through Thursday, and from 8:00 a.m. to NOON on Fridays.

COURSE OPEN ENROLLMENT

Unless specifically exempted by statute, every course wherever offered and maintained by the District is fully open to enrollment and participation by any person who has been admitted to the college and meets the course prerequisites established in accordance with Title V.

COURSE REPETITION

WHEN MAY COURSES BE REPEATED?

SUBSTANDARD WORK

A student who has earned a grade of D, F, NC (No Credit) or W in a non repeatable class may repeat that course once to improve their grade. A student who has received two substandard grades must petition and receive the Division Dean's approval to repeat the course for the third time. A student who has received two W's must petition and receive approval from their counselor to repeat the course for the third time.

REPEATABLE COURSES

When a class is identified as repeatable in the Class Schedule, that course may not be repeated more than three times regardless of the grades received. No portion of the class may be repeated to improve a student's grade point average.

VARIABLE UNIT COURSES

When a course is designated as repeatable and is also variable unit, the number of repeats dictates how many times the course may be enrolled in for credit. A variable unit course which is not designated as repeatable may be registered for until the maximum number of units has been attempted. No portion of the class may be repeated to improve your grade point average.

OTHER REPETITIONS – A & G PETITION PROCESS

Any repetition of a class beyond the specified limits previously specified must be petitioned in the Admissions Office. Criteria that can be considered is a significant lapse of time (usually 2 years or more) since the student previously completed the course, or in the event of documental extentuating circumstances (accident, illness, injury, or other circumstance beyond the control of the student).

WITHDRAWAL POLICY

While an instructor may drop a student, it is the student's responsibility to officially withdraw from a class in which they stop attending.

For a semester length course, students must drop by Friday, February 22 to not receive a "W" grade and not be responsible for registration fees. Any student who is officially enrolled in a semester length class beyond February 22, 2008 is financially responsible for all registration fees associated with that enrollment, even if the student does not attend the class. Time periods for short term classes are different. Please check with the Admissions Office for deadlines.

Students may drop and receive a "W" grade between February 23 and May 9, 2007. Student enrolled in classes that are less than semester length, must withdraw before the 75% point of the class. Neither the student or instructor may initiate a withdrawal after the deadline, and students officially enrolled in a class beyond the drop deadline must receive a grade other than "W."

FAMILY RIGHTS AND PRIVACY ACT

As required under the provisions of the Family Rights and Privacy Act of 1974, Santa Ana College will make public without student consent only certain directory information. This information consists of the following:

- student's name, city of residence, major field of study;
- participation in officially recognized activities and sports;

- the most recent previous educational institution or agency attended by the student.

A student may request the Admissions and Records Office to withhold this information. Such request can be in writing and submitted each semester, or the student may do this privacy block in person. Bring a photo ID!

CREDIT/NO CREDIT (Pass/Fail)

Credit/No Credit petitions for full semester classes must be received in the Admissions Office by March 14, 2008. Credit/No Credit petitions for classes less than a semester in length must be submitted before 30% of the class expires. Credit/No Credit courses may <u>NOT</u> be taken in the student's major field and a maximum of 12 units of credit/no credit are allowed toward a degree program. Credit/no credit does not include credit by examination. Deadlines for CR/NC forms are final! A&G petitions will not be approved.

TRANSCRIPTS

Official Transcripts of previous high school and college work should be filed with the Admissions Office by students pursuing a degree.

ONLINE COURSES FOR SPRING 2008

Participation/Attendance, and Exams

Students enrolling in the following courses will have the opportunity to complete most of their course work outside of the classroom, although some classes combine mandatory on campus meetings with online instruction. On campus meeting dates are listed for most classes. Students may access course materials via the Internet either at home or using an on campus computer. Students are required to log onto the class website and email the instructor during the first week of the class or they may be dropped from the class roster. A Santa Ana College instructor will be available on campus, by phone, or email to answer questions or discuss course material during the course.

Course Information

Information about online classes such as course orientation or meeting dates, time and place, Frequently Asked Questions, course requirements, textbook and instructor contact information can be found at **http://www.sac.edu/disted**. Students on wait lists must email the instructor the first week of class to be considered for enrollment.

LEARNING COMMUNITIES II Learning Communities Aren't Just for Freshmen!

Following up on six years of increased students success in Freshman Experience learning communities, Santa Ana College is now offering a new set of learning communities opportunities: Learning Communities II.

Learning Communities II afford innovative approaches to traditional course offerings by creating linked classes in which students and instructors will explore subjects, themes, and academic skills and competencies that are common to both classes.

Note: Students are required to enroll in all classes within the Learning Communities II cohort. To enroll in this program, students may register online, by telephone or in person.

For further information, call the Counseling Center at (714) 564-6100.

SANTA ANA COLLEGE ESL/ENGLISH FOR MULTI-LINGUAL STUDENTS (EMLS)

The ESL/English For Multi-Lingual Students Program is offered by the English Department for students whose native language is not English. Courses are offered AT the beginning, intermediate, and advanced levels. Initial placement into courses is the result of language testing using the ESL/EMLS Placement Test and advisement.

ESL test scores from other institutions are not accepted. ESL students who have completed ESL credit courses at other colleges and are still in need of additional English instruction must take the placement test at Santa Ana College or Santiago Canyon College, to determine which courses best meet their needs.

Courses in the program include ESL N40A, ESL N40B, ESL N49, EMLS 055, EMLS 107, EMLS 109, EMLS 110, and EMLS 112. Supplemental enrollments in speech and reading courses are shown in the diagram below. Non-native speakers of English wishing to enter the transfer English program, which begins with English 101, must meet the following requirements:

ATHEMAI

The content of Math N05 and Math N06 is the same, but the methods of instruction differ. Math N05 is self-paced and students may take more than one semester to earn the full 3 units. Math N06 students experience a more structured environment and must complete the course in one semester. Former Math N05 students, who have earned 1 or more units should enroll in Math N05 to complete their study of Basic Math.

Santa Ana College offers an associate degree and two certificate options in Pharmacy Technology. Each option meets the requirements for licensing by the California State Board of Pharmacy. Each option also prepares students for the national Pharmacy Technician Certification Board (PTCB) exam.

Pharmacy Technology classes are offered both daytime and evening, and our schedule is designed for part-time students. Beginning students should enroll in Pharmacy Technology 048, 051, and 054.

Call the Human Services & Technology Division at 564-6800 for a complete program brochure. The brochure outlines the training options and specific courses required. The brochure also contains information on the Board of Pharmacy licensing procedure and the national PTCB certification exam. Information is also available at www.sac.edu/pharmacy

ACADEMIC PLANNING . . .

PREREQUISITES, COREQUISITES, & READING LEVELS

IMPORTANT DEFINITIONS

If you should see the words **Prerequisite**, **Corequisite**, or **Advisory Reading Level** in the class schedule, it is important for you to understand the definitions of these terms. Note that prerequisites and corequisites can be challenged. See *Prerequisite Challenge Policy*, on this page, for more information.

PREREQUISITE indicates a condition of enrollment that a student is required to meet in order to demonstrate current readiness for enrollment in a course or educational program. A prerequisite represents a set of skills or a body of knowledge that a student must possess prior to enrollment and without which the student is highly unlikely to succeed in the course or program. Students will not be permitted to enroll in such courses and programs without the appropriate prerequisite.

COREQUISITE indicates a condition of enrollment consisting of a course that a student is required to simultaneously take in order to enroll in another course. A corequisite represents a set of skills or a body of knowledge that a student must acquire through concurrent enrollment in another course and without which the student is highly unlikely to succeed. Students must concurrently enroll in the corequisite course.

ADVISORY READING LEVELS indicate desirable reading skills for a course. These are recommended but not mandatory prior to enrollment.

WHAT THE LEVELS FOR

ADVISORY READING LEVELS MEAN

- LEVEL 2 Minimum reading level: Qualification for Reading N90 *determined by* reading placement test.
- LEVEL 3 Qualification for Reading N90 on reading placement test.
- LEVEL 4 Qualification for Reading 100 on reading placement test.

*Levels 2 and 3 are approximately 8th grade reading level. This is the minimum reading proficiency level required for high school graduation in California. Short newspaper articles with common vocabulary are often about 8th grade reading level. Students with this level of reading may have difficulty with texts containing complex ideas and new vocabulary.

**Level 4 is approximately 10th grade reading level. This is the minimum level required for an AA/AS degree at RSCCD. Longer newspaper articles with content-specific vocabulary are often about 10th grade reading level. Motivated students with this level of reading skill can often handle texts where new vocabulary and concepts are explained.

PREREQUISITE CHALLENGE POLICY AND PROCEDURES

COURSE PREREQUISITE POLICY

Prerequisite means the preparation or previous course work considered necessary for success in the course. The College requires students to complete prerequisites as preenrollment preparation. Prerequisites which are listed in the College Catalog include:

- 1. Courses for which specific prerequisites have been established,
- 2. Sequential course work in a degree-applicable program, and
- Courses in which an equivalent prerequisite exists at a four-year transfer college or university.

Questions about prerequisites are best resolved with a counselor or instructor prior to the first day of class.

PREREQUISITE CHALLENGE PROCESS

A prerequisite challenge requires written documentation explaining alternative coursework, background or abilities which adequately prepare the student for the course. A Prerequisite Challenge Form can be obtained from the appropriate division office. Prerequisites may be challenged for one or more of the following reasons:

- 1. The college has not developed the prerequisite according to its established procedures or has not developed the prerequisite in accord with existing statutes.
- 2. The prerequisite is discriminatory or is being applied in a discriminatory fashion.
- 3. The College has not made the prerequisite course reasonably available.
- 4. The student has documented knowledge and abilities equivalent to those specified in the prerequisite course.

The challenge will be reviewed by a committee consisting of the division dean, or designee, department chair, or designee, and one department or division representative or designee.

If space is available in a course when a student files a challenge to the prerequisite or corequisite, the district shall reserve a seat for the student and resolve the challenge in a timely manner. If no space is available in the course when a challenge is filed, the challenge shall be resolved prior to the beginning of registration for the next term and, if the challenge is upheld, the student shall be permitted to enroll if space is available when the student registers for that subsequent term.

Note: Students who are challenging a course which is a requirement for a degree or certificate may wish to use the Credit by Examination process to receive credit for the challenged course.

CERTIFICATE PROGRAMS

A certificate is a verification of competency in a particular occupational skill. Certificate programs normally include only those courses which have a direct bearing upon specialized occupational competency since the certificate has the sole objective of immediate employment in a specialized area. For this reason there is no general education requirement in a certificate program. Santa Ana College certificate programs leading to immediate employment are listed in the catalog. To qualify for a certificate of completion, a candidate must meet the following requirements:

- 1. Courses: Courses are designated for the specific certificate.
- Grades: At least a C grade in each course required for the certificate, unless otherwise specified. Credit by Examination may also be used to gain credit for required courses.
- Credit/No Credit: A credit/no credit course is acceptable toward the certificate if it is required for the certificate and (a) offered on a credit/no credit basis only or (b) if the credit/no credit is earned on the basis of credit by examination.
- 4. **Residency:** Twelve units completed at SAC/SCC. (At least six of the units must be in courses required for the certificate, unless otherwise noted in the catalog.)

INTERSEGMENTAL GENERAL EDUCATION TRANSFER CURRICULUM (IGETC) Plan C: 2007–2008 Santa Ana College

Completion of all the requirements in the Intersegmental General Education Transfer Curriculum (IGETC) will permit a student to transfer from Santa Ana College to a campus in either the CALIFORNIA STATE UNIVERSITY or the UNIVERSITY OF CALIFORNIA system without the need, after transfer, to take additional lower-division, general education courses to satisfy campus general education requirements.

- 1. Complete all the listed requirements for IGETC prior to transferring. Partial certification of IGETC is not permitted[†].
- 2. Complete all courses used for IGETC certification with a minimum grade of C (C minus is not acceptable). A "credit" is acceptable providing it is equivalent to a grade of C or higher. The catalog must reflect this policy.
- Request certification from the last California community college you attend prior to transfer to CSU or UC. Requests should be made to the Office of Admissions and Records during the semester prior to the last term of attendance. (Please check deadlines.)
- Prior to requesting certification, have all official transcripts on file from every high school and college you have attended.
- Courses taken at other California community colleges will be applied to the subject areas in which they are listed by the institution where the work was completed.
- 6. Courses taken at other regionally accredited private/out of state institutions (which do not maintain an IGETC certification list) will be placed in the subject areas for which Santa Ana College has equivalent courses. Equivalency is determined by Santa Ana College faculty teaching the course. Petitions are available from Counseling and must be accompanied by the appropriate documentation.
- Courses completed at foreign institutions are not acceptable except for certification of competence in a language other than English.

IMPORTANT NOTE: The list of certifiable courses will be subject to change year by year, but students are assured that courses taken to meet IGETC requirements will be honored if they are approved for the academic year in which they are taken.
