About Degrees/Certificates

The Bachelor of Science Degree is a four-year degree requiring students to complete 120 units of course work consisting of upper and lower division major/discipline and general education courses.

The Associate in Arts Degree for Transfer (AA-T) and Associate in Science Degree for Transfer (AS-T) are degrees that qualify students for transfer to CSU, many Independent California Colleges and Universities as a Junior. (Major classes plus general education classes = 60 units.

All Associate degrees offered at Santa Ana College provide students with the necessary skills to compete successfully in related job markets. Completion of an Associate degree does not always adequately satisfy transfer major requirements. Meet with a counselor to develop a custom education plan.

Certificates of Achievement (CA) and Proficiency (CP) are a verification of achievement in a particular academic or occupational area requiring 6-30 units of major/discipline focused classes.
