Cooperative Work Experience Education Plan

Responses to Plan Requirements

This and the following sections set forth a Title 5-required element, background information as appropriate, and the college's response to each.

(§55250) Any program of Cooperative Work Experience Education conducted by the governing board of a community college district pursuant to this article and claimed for apportionment pursuant to sections 58051 and 58003.5 conform to a plan adopted by the college. The plan adopted by the college shall set forth a systematic design of Cooperative Work Experience Education whereby students, while enrolled in college, will gain realistic learning experiences through work. This plan shall be submitted to and approved by the local governing board.

I. Types of Cooperative Work Experience Education (§55252)

A. Specific Descriptions of each type of CWEE (§55251)

Cooperative Work Experience Education is a college-initiated and college-controlled program of education consisting of the following types:

1. **General Work Experience Education** is supervised employment which is intended to assist students in acquiring desirable work habits, attitudes, and career awareness. The work experience need not be related to the students' educational goals.
2. **Occupational Work Experience Education** is supervised employment extending classroom based occupational learning at an on-the-job learning station related to the students' educational or occupational goal.
 - a) An on-the-job learning station consists of the student's workstation where they will be learning their new/expanded responsibilities as defined by the three on-the-job performance objectives approved by the Cooperative Work Experience Education (CWEE) instructor and employer/supervisor.
 - b) Job learning stations shall meet the following criteria (§55257):
 - i. Employers or designated representatives agree with the intent and purposes of Cooperative Work Experience Education for students and are given a copy of each student's approved on-the-job learning objectives.
 - ii. Job learning stations offer a reasonable probability of continuous work experience for students during the current Cooperative Work Experience enrollment term.
 - iii. Employers or designated representatives agree to provide adequate supervision, facilities, equipment, and materials at the learning stations to achieve on-the-job learning objectives.
 - iv. Employers agree to comply with all appropriate federal and state employment regulations.
3. Minor Students in Work Experience
 - a) All laws or rules applicable to minors in employment relationships are applicable to minor students enrolled in Cooperative Work Experience Education courses. (§55250.2)

Santa Ana College

4. Work Experience Programs for Students with Developmental Disabilities. (§55250.4)
 - a) The governing board of any community college district which establishes and supervises a Cooperative Work Experience Education program in which students with developmental disabilities are employed in part-time jobs may use funds derived from any source, to the extent permissible by appropriate law or regulation, to pay the wages of students so employed.
 - b) The Board of Governors hereby finds and declares that the authority granted by the provisions of this section is necessary to ensure that the Cooperative Work Experience Education program will continue to provide a maximum educational benefit to students, particular students with developmental disabilities, and that such program is deemed to serve a public purpose.
 5. Work Experience Outside of District (§55250.6)
 - a) The governing board of any community college district may provide for the establishment and supervision of Cooperative Work Experience Education programs providing part-time jobs for students in areas outside the district.
 - b) The Work Experience instructor will provide supervision outside of the district and/or provide a designated representative.
- B. Work Experience Credit (§55255.5)
- The basis for awarding grades and credit is as follows (§55251):
1. One student contact hour is counted for each unit of Cooperative Work Experience Education credit in which a student is enrolled during any census period. In no case shall duplicate student contact hours be counted for classroom instruction and Cooperative Work Experience Education. The maximum contact hours counted for a student shall not exceed the maximum number of Cooperative Work Experience Education units for which the student may be granted credit as described in section 55253.
 2. The learning experience and the identified on-the-job learning objectives shall be sufficient to support the units to be awarded.
 3. The following formula will be used to determine the number of units awarded:
 - a) Each 75 hours of paid work equals one semester credit.
 - b) Each 60 hours of non-paid work equals one semester credit.
 4. Students will be awarded a grade of Pass/No Pass based on their completion of the required number of hours and successful completion of the approved learning objectives.
 5. Students may take up to 4 units of Work Experience per term. Cooperative Work Experience courses are repeatable 3 to 15 times to the maximum of 16 units.
