

### **Cross-listed Courses and General Education**

The CSU Chancellor's Office and the UC Office of the President recognize that cross listed courses have identical course outlines other than prefix and/or number. Because of this CSU/UC automatically approve a cross listed course for the same GE area(s) of CSU-GE (SAC Plan B) and IGETC (SAC Plan C) for which a "parent" course has been approved.

SAC will include any new or existing cross-listed courses in the same GE area(s) as the parent course on Plans B and C. A new curriculum committee GE approval is not required. However, faculty are strongly encouraged to still request GE inclusion for the new cross-listed courses. Catalog inclusion cannot be guaranteed without Curriculum Committee awareness.

In addition, based on the same common outlines SAC will also include a new cross-listed course in the same GE area(s) as the parent course on Plan A. Again, a new curriculum GE approval is not required but is strongly encouraged in order to ensure catalog inclusion.
