

A Special Message to our Santa Ana College Foundation Partners,

**Our work continues.**

Now more than ever, the Santa Ana College Foundation team is committed to serving our students, staff, supporters and friends. We want to ensure you that the work of the Santa Ana College Foundation goes on, and is more important than ever as we face uncertain times.

Santa Ana College continues to uphold our mission to provide the highest quality education to our students and community. To this point, all students beginning this week have transitioned to online courses. **Even still, their hard work and determination continues as they work to further their education and raise their game.**

We are laser-focused on meeting the highest priorities of our students during this time, which includes the critical selection and awarding of all of our student scholarships, which are made possible by YOU, our outstanding donors and friends, as well as our other philanthropic campaigns.

Your support matters now more than ever, and we will provide you with an update soon regarding all upcoming philanthropic events, campaigns, and student-centered celebrations in the near future. Many of our donors are using this time of uncertainty to come together to support those in need. If you feel inspired to uplift a Santa Ana College student in some way, please reach out via email at [romero\\_christina@sac.edu](mailto:romero_christina@sac.edu) or by phone at 714-564-6091.

You are part of a community that matters deeply to each and every student on this campus and for that, we thank you. In these uncertain times, one thing that remains unwavering is our commitment to our community. Our team looks forward to continue supporting our students, staff, donors, and partners. We urge you to remain in touch with us, remain vigilant, and take care of your health. Please be well and be safe.

With gratitude,  
Christina R. Romero, Executive Director and the Office of Advancement Team
