

Text Book Acquisition Assignment

The text book is not in the college bookstore. Part of this assignment is for you to get the text book by the due date of the assignment.

The assignment assumes you are the office manager who has been given an assignment to locate the textbook for the supervising attorney. The budget is tight so you were told to get a good copy of the text, as inexpensive as possible, however it must be here by the due date.

To be successful in this assignment you must independently locate and have in hand the text book by the due date.

Part of this assignment is the discussion board. You must participate during the entire discussion period on the discussion board. The link to the discussion assignments is on the left side of the page in the green box. Read and follow the instructions for the discussion. The discussion is to demonstrate how you can be a helpful member of a team. You need all of the team members to be successful. Show through your participation how you can help the team succeed.

After you have completed the discussion submit a response to the following questions as part of this assignment:

1. List all of the places you explored to find the best price for the text?
2. Why did you choose the site you used to obtain your text?
3. After reviewing all of the student posts, who would you state did the best job in locating the text? Do a proper analysis and explain why you came to this conclusion.
4. After reviewing all of the student posts, explain who you think did the worst job. (The criteria is listed in the assignment description.)

Only submit the assignment one time unless instructed to resubmit by Professor Manzano. Multiple submissions will result in a 0. Get it right the first time!
